Final Project Individual Feedback NAME

Task	Name 1	Name 2
Introduction & Abstract	50%	50%
Related Work	50%	50%
Method	50%	50%
Experiments	50%	50%
Ablation Study	50%	50%
Conclusion	50%	50%
Overall	50%	50%

Table 1. Rough workload distribution on writing the final report.

Task	Name 1	Name 2
Project set-up	50%	50%
Establish baseline	50%	50%
New methods	50%	50%
Experiments	50%	50%
Clean code & example Notebook	50%	50%
README	50%	50%
Overall	50%	50%

Table 2. Rough workload distribution for coding.

1. Introduction

This document is for you to give confidential Feedback about the workload distribution and the group dynamic. Grounded on this information we might decide to grade the students out of one group individually. Please submit this via a private mail (not with your fellow students in cc) to your tutor at the time you hand in your project.

2. Feedback Writing

If you like provide us here with more detailed feedback or comments

3. Feedback Coding

If you like provide us here with more detailed feedback or comments

4. Feedback General

If you like provide us here with comments. If you think something could have been handled differently or if you disliked something please let us know. We will try to adress this in the upcoming semesters. If you have specific improvements we could make please let us know as well.
